

Pharmaceris **H**

DERMOCARE OF HAIR AND SCALP

**PATENTED
SOLUTION FOR THE
PROBLEM OF HAIR LOSS**

**10 years of research
Patented formula**

A specialised line of products for men and women based on a unique combination of the **Natural Growth Factor FGF** in a **patented technology** of dermal microspheres and **caffeine** offers effective and scientifically-proven solutions: slows down periodic and premature hair loss and at the same time stimulates hair regrowth.

Pharmaceris **H** products based on patented dermal transport technology allow the natural FGF growth factor to penetrate deep into the hair follicle*, accelerating hair density increase – results have been observed **after only 28 days of treatment**.
